*Topics and times subject to change*

## Continuing Education

An application for **CME** and **CNE** credit for this activity has been submitted to the CDC Continuing Education Department. Please see final announcement for full details.

**NO** commercial support was given to Heartland National TB Center or The University of Texas Health Science Center at Tyler for this education program.

### Target Audience

This course is designed for physicians, nurses and public health staff who are actively engaged in the identification, case management, and treatment of pediatric and adolescent patients with tuberculosis infection or disease.

### Conference Goal

Using highly interactive lectures and case studies, participants will be able to identify the facets involved in identifying and treating pediatric and adolescent patients with both TB infection and TB disease. In addition, participants will review the current epidemiology, pathogenesis, identification, and treatment of TB affecting children and adolescents.

### Conference Objectives

Describe the epidemiology of pediatric TB; discuss the difference between TB exposure, infection and disease in children; identify the risk of progression from TB infection to TB disease in different age groups; describe how the diagnosis of TB infection in children is made; identify the diagnostic challenges of identifying TB in children; discuss the radiographic manifestations of TB in children; describe the treatment of TB in children; discuss the monitoring of children on treatment for TB disease or TB infection; describe the presentation, clinical manifestations and diagnosis of TB meningitis; summarize evidence for best practices in diagnosing and treating TB infection and TB disease in adolescents.

### Format

The format for this live event will include lecture presentations and case scenario analysis with audience discussion and participation. There will be ample time for questions and answers.

## FACULTY

**Lisa Y. Armitige, MD, PhD**  
*Heartland National TB Center*

**Andrea T. Cruz, MD, MPH**  
*Baylor College of Medicine, Texas Children's*
