**NO** commercial support was given to Heartland National TB Center or the University of Texas Health Science Center at Tyler for this educational program.

### Target Audience

This course is intended for TB program managers, TB nurse case managers and local health department nurses responsible for the management of patients with, or suspected of, tuberculosis.

### Format

The format for this conference will include lecture presentations, panel discussions, case studies and hands-on skill building exercises. There will be ample time for questions and answers.

### Conference Goal

The goal of the conference is to provide an in-depth training experience covering the knowledge and skills essential for overseeing the treatment and care of a patient with tuberculosis disease or latent TB infection. The workshop is formatted to go beyond basic TB information and to enhance the participant's ability to be accountable for all facets of TB nurse case management.

### Conference Objectives

Upon course completion, participants will be able to competently: describe the diagnosis and treatment of TB infection and TB disease; define the role of a TB nurse case manager; employ best practice activities for TB nurse case management; identify indicators of non compliant patients; discuss effective monitoring and evaluation procedures for the successful treatment of a TB patient; critically analyze effectiveness of TB nurse case management processes; and evaluate patient adherence and understanding of the importance of treatment completion.

### OUR VISION

*The vision of Heartland National TB Center is to provide excellence, expertise, and innovation in training, medical consultation, and product development to reduce the impact of tuberculosis in our region.*

### OUR MISSION

*The mission of the Heartland National TB Center is to build capacity with our partners. We will share expertise in the treatment and prevention of tuberculosis by: developing and implementing cutting-edge trainings, delivering expert medical consultation, providing technical assistance, and designing innovative educational and consultative products.*
