Wisconsin Department
of Health Services

 **AMERICAN LUNG ASSOCIATION.**
IN WISCONSIN

Target Audience

This course is intended for physicians and nurse experts who are actively engaged in the management of patients with, or at risk of, multi-drug resistant tuberculosis (MDR TB).

Conference Goal

The goal of the conference is to enhance the expertise of providers to improve the prevention, treatment, and management of patients with MDR TB.

Conference Objectives

Upon completion of the training, participants will be able to: explain the definition of MDR TB; how it develops in the TB patient and adequate control measures; describe the laboratory's role in the diagnosis of the MDR TB case; and discuss the management and treatment of MDR TB disease.

Format

The format for the conference will include lecture presentation and problem solving in analyzing case scenarios. There will be ample time for questions and
