## **CONTINUING EDUCATION**

The Centers for Disease Control and Prevention is accredited as a provider of Continuing Nursing Education by the American Nurses Credentialing Center's Commission on Accreditation.

This activity provides **4.0** contact hours.

**NO** commercial support was given to Heartland National TB Center or the University of Texas Health Science Center at Tyler for this educational program.

## Target Audience

This course is designed for the TB professional who is responsible for training staff and other health care workers on the proper placement and reading of the tuberculin skin test (TST).

## Conference Goal

The goal of this training is to provide in-depth educational and training experience for the healthcare worker who is responsible for screening, administering, and interpreting a TST and is also responsible for conducting a TST training for their institution.

## Conference Objectives

At the completion of this training participants will be able to discuss basic adult learning principles, list the steps required to set-up a TST workshop, identify persons for whom targeted TB skin testing is indicated, demonstrate the placement of a TST and employ effective team skills by sharing information effectively.

## Format

The format for this course will be lecture-style presentations, with an interactive skill building practicum. There will be ample time for questions and answers.

## OUR VISION

*The vision of Heartland National TB Center is to provide excellence, expertise, and innovation in training, medical consultation, and product development to reduce the impact of tuberculosis in our region.*

## OUR MISSION

*The mission of the Heartland National TB Center is to build capacity with our partners. We will share expertise in the treatment and prevention of tuberculosis by: developing and implementing cutting-edge trainings, delivering expert medical consultation, providing technical assistance, and designing innovative educational and consultative products.*
