1. Describe the role of the nurse case manager in identifying individuals with Tuberculosis (TB).
2. Identify strategies for management of Tuberculosis (TB).
3. Describe the regimens for management of Tuberculosis (TB).
4. Describe the differences in treatment regimens for patients with Tuberculosis (TB).
5. Discuss approaches for multidisciplinary collaboration with partners who work with Tuberculosis (TB) patients.

Origination Date: 08/10/2022

Renewal Date: N/A

Expiration Date:08/10/2024

ACCREDITATION STATEMENTS:

In support of improving patient care, this activity has been planned and implemented by Centers for Disease Control and Prevention and **Heartland National TB Center**. The Centers for Disease Control and Prevention is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

CNE: The Centers for Disease Control and Prevention designates this activity for **(6.0)** nursing contact hours.

DISCLOSURE: In compliance with continuing education requirements, all planners and presenters must disclose all financial relationships, in any amount, with ineligible companies over the previous 24 months as well as any use of unlabeled product(s) or products under investigational use.

CDC, our planners, and presenters wish to disclose they have no financial relationship(s) with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Content will not include any discussion of the unlabeled use of a product or a product under investigational use.

CDC did not accept financial or in-kind support from ineligible companies for this continuing education activity.
