System Requirements

To access and view this training event, you will need a computer with internet access. Audio for this web-based training will be through your computer's speakers. We recommend that you check your system for compatibility and connectivity prior to the event. Instructions to test your system will be sent with registration confirmation. If you have any questions about connectivity or audio, please contact lauren.warren-fields@uthct.edu

Target Audience

This webinar is intended for nurses, physicians, TB program staff, and other healthcare personnel who are involved in TB care and prevention efforts in Texas.

Conference Goal

Each year we commemorate World Tuberculosis (TB) Day on March 24 to raise public awareness about the devastating health, social and economic consequences of TB, and to step up efforts to end the global TB epidemic. Join our TB experts as they discuss epidemiological TB trends in Texas and migrant populations; state laboratory updates and innovations on the horizon; TB in vulnerable populations; TB initiatives in Texas; and the importance of providing patient-centered care for improved healthcare outcomes.

Our Vision

The vision of Heartland National TB Center is to provide excellence, expertise, and innovation in training, medical consultation, and product development to reduce the impact of tuberculosis in Texas.

Our Mission

The mission of the Heartland National TB Center is to build capacity with our partners. We will share expertise in the treatment and prevention of tuberculosis by developing and implementing cutting-edge trainings, delivering expert medical consultation, providing technical assistance, and designing innovative educational and consultative products.
