TB Swag Giveaway!

Throughout the training, we will be giving away some of our Heartland National TB Center Swag. You could be the lucky winner of any of these fine items!

Case Study: Evaluation of Immigrant Family from Eritrea

Case Study

04/30/2019: 37 year old male from Eritrea (speaks Tigrigna) entered U.S. in 10/15/2016. He had no record of TB evaluation at time of entry into the U.S. and he had no history of prior TB.

He was admitted to University Hospital in San Antonio, Texas on 04/29/2019 with a 4-month history of a dry cough, feeling poorly, and weight loss.

Weight decreased from his usual weight of 63 kg down to 54 kg

He denied fever, night sweats or hemoptysis

Eritrea

Father: highly infectious pulmonary TB
